

**Westchester County**  
**Continuum of Care Partnership for the Homeless**  
**COC MONTHLY BOARD MEETING**  
**AGENDA: September 18, 2019**

- I. Welcome and Introductions**
- II. Announcements (APR)**
- a. Name change to Westchester County Continuum of Care Partnership to End Homelessness scheduled for 10/1/19
  - b. SOAR – revival scheduled for Sept – 9/18 refresher training & 9/19 stakeholders 9:00am here at DCMH (now child SOAR!)
  - c. STEHP results – ramifications
  - d. October meeting – can we move to 10/23 ? (16<sup>th</sup> is OTDA meeting)
- III. Upcoming trainings (CW)**
- a. Motivational Interviewing 10/3
  - b. Mandatory CHAT – 10/7 at BOE or 10/8 at DCMH – attend just 1
- IV. ESG Priorities FY19 – discuss and vote**
- V. Revision to Assistance Procedures - # of bedrooms – review & vote**
- VI. CoC NOFA (YS, APR, KB)**
- a. Dates remaining:
    - 9/20 and 9/23 – workgroup meeting
    - 9/24-9/25 – aim for public posting
    - 9/30/19 – completed NOFA due
- VII. Racial Disparity Tool and preliminary report (KB)**
- VIII. Guiding Principles review – particularly around support letters guidelines**
- IX. Subcommittees**

**Westchester County Continuum of Care Partnership for the Homeless  
Monthly Meeting Minutes**

**September 18, 2019**

**Attendees: Annette Peters-Ruvolo (Co-Chair), Karl Bertrand (Co-Chair), Bruce Anderson, Dahlia Austin, Ruthanne Becker (phone), Barbara Bento-Fleming (phone), Sylvia Bolivar, Erika D'Aquino, Helen Frankel (phone), Tajae Gaynor, Michelle Gonzalez (phone), Nicole Granata (phone), Alba Guevara (phone), Cynthia Knox (phone), May Krukiel (phone), Cordetta Creighton, Doreen Lockwood (phone), Maria McGinty, Anthony Sabia, Allison McSpedon, Patricia Mims, Yoav Spiegel, JoMarie Tarchoun, Craig Wong, Jeff Worden, Walt Ritz, Michele Landry**

Topic #1:	Discussion:
<b>Announcements/Updates</b>	<ul style="list-style-type: none"> <li>• Annette Peters-Ruvolo, Co-Chair, opened the meeting at 9:37 a.m.</li> <li>• Introductions were made</li> <li>• Reminder: Name change to Westchester County Continuum of Care Partnership to End Homelessness scheduled for 10/1/19</li> <li>• SOAR – revival scheduled for Sept – 9/18 refresher training (only for those who were already SOAR trained) &amp; 9/19 stakeholders meeting 9:00am at DCMH (now child SOAR!)</li> <li>• STEHP results – some of our capacity to provide eviction prevention and RRH has been lost in this year’s STEHP awards process. We are hoping that, in the process of Westchester County Planning regaining control of their HUD ESG funds, we will recoup some of this, there will most likely be a gap of at least one year. Board was asked to keep that in mind when we discuss our formal ESG recommendations.</li> <li>• October Board meeting moved from the 16<sup>th</sup> to the 23<sup>rd</sup> (October 16<sup>th</sup> is an all-day OTDA meeting)</li> <li>• Hope Community Services and Shiloh Baptist Church will be hosting; Showers of Hope on Sunday 9/22/19 from 8:00am to 12:00pm. The event will provide free showers, blood pressure checks, fresh clothes, hair grooming and essential care items.</li> </ul>
<b>Follow-up:</b>	<ul style="list-style-type: none"> <li>• Jeff will update COC website, guiding principles, and community resources to reflect the name change. Annette to update CoC logo</li> <li>• E-mail reminders for October Board Meeting date change will be sent out by Annette</li> <li>• Flyers for the Showers of Hope event will be distributed throughout the CoC</li> </ul>

Topic #2:	Discussion:
<b>Upcoming Trainings</b>	<ul style="list-style-type: none"> <li>• Motivational Interviewing Training scheduled for 10/3/19 from 8:30am to 11:30am at BOE. Only 8 spots left on the registration list!</li> <li>• Mandatory CHAT – 10/7 at BOE and 10/8 at DCMH – Anyone currently completing HAT assessments are <b>required</b> to attend one of these four training sessions. CHAT will be accessible in HMIS on 10/ 1/19 – CHAT will be used for the prioritization process beginning 11/1/19</li> </ul>

Topic #3:	Discussion:

<b>2019 Priorities for Emergency Solutions Grant</b>	<ul style="list-style-type: none"> <li>• In the past the CoC’s priorities for Emergency Solutions Grant funding included street outreach and administering Rapid Re-Housing projects to target participants currently homeless or living in transitional housing.</li> <li>• Sylvia motioned to have ESG funding to include eviction prevention, as well as Rapid Re-Housing and street outreach. Bruce seconded the motion. All were in favor, zero opposed.</li> <li>• Eviction prevention will be added to the list of funding allocation priorities</li> </ul>
<b>Follow-up:</b>	<ul style="list-style-type: none"> <li>• Yoav will include a paragraph adding eviction prevention to the funding allocation priorities for ESG funding &amp; Annette will send to County Planning as well as include in HUD application.</li> </ul>

<b>Topic #4:</b>	<b>Discussion:</b>
<b>Revision to Assistance Procedures</b>	<ul style="list-style-type: none"> <li>• Addition of a chart providing the breakdown of number of bedrooms allowed by number of persons in household to the CoC assistance procedures.</li> <li>• Dahlia made a motion to change the language within the assistance procedures from “but only” to “for example”, Bruce seconded the motion. All were in favor. Zero opposed.</li> <li>• Revision: “Households may require units larger than indicated above, for example children of opposite sex, other than very young children, are not required to occupy the same bedroom”.</li> </ul>
<b>Follow-up:</b>	Yoav will update the assistance procedures to reflect the change. Revised procedures will be posted to website.

<b>Topic #5:</b>	<b>Discussion:</b>
<b>CoC NOFA</b>	<ul style="list-style-type: none"> <li>• Project applications completed and submitted</li> <li>• CoC Application in the final stages of completion</li> <li>• Comment period expected to be at least 72 hours</li> <li>• Completed application is due on 9/30/19</li> </ul>
<b>Follow-up:</b>	<ul style="list-style-type: none"> <li>• Once completed Annette will open the Comment Period and email entire CoC membership. Jeff will add the applications to the CoC website. Once comment period closed, if no changes requested, Annette and Yoav will submit and alert the Board.</li> </ul>

<b>Topic #6:</b>	<b>Discussion:</b>
------------------	--------------------

<b>2019 Racial Disparities Analysis</b>	<ul style="list-style-type: none"> <li>Westchester's 2019 Racial Equity Analysis Tool identified the presence of racial and ethnic disparities in experiences of homelessness that were beyond the impact of poverty alone.</li> <li>A discussion of next steps followed such as conducting further analysis on the race/ethnicity of people entering RRH and PSH, collecting eviction data through the courts, contacting local organizations who specialize in addressing racial disparities.</li> <li>These findings (along with needs discussed during the Meeting on Priorities in May) will be taken into consideration when discussion/planning for this year's (and future) NOFAs.</li> </ul>
<b>Follow-up:</b>	<ul style="list-style-type: none"> <li>Karl will follow-up with Jeff and Daniel regarding relevant data points that can be accessed through HMIS. Annette will follow up with Commissioner Orth regarding county-wide groups looking at this issue from a larger lens.</li> </ul>

<b>Topic #7:</b>	<b>Discussion:</b>
<b>Guiding Principles Review</b>	<ul style="list-style-type: none"> <li>Discussion of adding a procedure or structure for when letters of support are requested by providers within and outside of our CoC. For example, should we provide the requestor with a questionnaire to help create more dialogue about why they need our support?</li> <li>Should our CoC create a blanket statement, or requirement(s) in order to receive a CoC letter of support?</li> </ul>
<b>Follow-up:</b>	<ul style="list-style-type: none"> <li>Discussion will continue during the next CoC Board meeting on October 23<sup>rd</sup>.</li> </ul>

<b>Topic #8:</b>	<b>Discussion:</b>
<b>2020 PIT Count</b>	<ul style="list-style-type: none"> <li>PIT Count date: January 23<sup>rd</sup>, 2020</li> <li>Training Site location for night of the count identified – Calvary Church off of East Post Road, White Plains</li> <li>New this year - Uniformity between PIT count participants with the distribution of lanyards and/or reflective vests</li> <li>PIT Count planners are in the process of connecting with Westchester County's IT department to rent tablets and implement a digital survey</li> <li>PIT count planning meetings are occurring monthly following our Street Homeless workgroup meetings</li> </ul>
<b>Follow-up:</b>	<ul style="list-style-type: none"> <li>CoC member organizations should be keeping track of where staff has seen/heard of street homeless sleeping locations, and providing that information to PIT count planning members (Allison, Michele, Jeff, Yoav)</li> </ul>

**Meeting was adjourned at 11:19am.**

**Respectfully submitted:** Annette Peters-Ruvolo & Jeffrey Worden

**Date:** 10/15/2019

**Next Meeting:**

**Date:** Wednesday, October 23<sup>rd</sup>

**Time:** 9:30am to 11:00am

**Location:** DCMH, 112 East Post Rd, Room 217

Per 24 CFR 578.75(c) Continuum of Care housing units must have at least one bedroom or living/sleeping room for each two persons.

Therefore, the following chart indicates the number of bedrooms allowed for a household of a specific number of persons:

Number of Persons in Household	Number of Bedrooms Allowed
1	1 Bedroom, Studio, SRO
2	1 Bedroom
3	2 Bedrooms
4	2 Bedrooms
5	3 Bedrooms
6	3 Bedrooms
7	4 Bedrooms
8	4 Bedrooms
9	5 Bedrooms

Some households may require units larger than indicated above, but only so that children of opposite sex, other than very young children, are not required to occupy the same bedroom.

If household composition changes during the term of assistance, CoC housing providers will relocate the household to a more appropriately sized unit.

## **Westchester County Continuum of Care: 2019 Priorities for Emergency Solutions Grant**

Adopted by the Board of the Westchester County Continuum of Care on September 18, 2019

### **Background:**

24 CFR 578.7 details the responsibilities of each Continuum of Care mandated by the Department of Housing and Urban Development. Under 578.7 (c)(5) Continuum of Care planning, HUD requires each CoC to “[Consult] with State and local government Emergency Solutions Grants program recipients within the Continuum’s geographic area on the plan for allocating Emergency Solutions Grants program funds”.

### **General Requirements:**

All ESG recipients within the Westchester County Continuum of Care geographic area are expected to work collaboratively to coordinate funding that addresses the needs of the entire continuum.

The Westchester CoC implemented a Coordinated Entry system beginning December 2017. Homeless persons in Coordinated Entry are assessed for severity of need, length of time homeless, and specific disabilities & barriers. The Coordinated Entry Administrator then identifies the type of housing assistance appropriate to each household and refers homeless to available beds in priority order so that those with highest needs and length of time homeless are housed first.

HUD and the Westchester Continuum of Care require that all ESG projects providing Homelessness Prevention and Rapid Re-housing participate in Coordinated Entry, using the guidelines, assessment tools, and procedures established by the Board of the CoC.

The CoC expects that each ESG recipient and subrecipient provider agency within the Westchester County Continuum of Care geographic area will designate a staff member as a point of contact for Coordinated Entry staff.

ESG subrecipient agencies are required to have staff involved in the assessment, intake, referral, & transfer of clients; and attend Coordinated Entry training sessions offered by the Westchester CoC.

### **Funding Allocation Priorities:**

The Board of the Westchester County CoC recommends that ESG recipients fund additional **Street Outreach** activities during the next opportunity to distribute ESG funds within the Westchester County Continuum of Care geographic area. Westchester County has recently lost significant capacity for Street Outreach; ESG funding is identified as a significant source of new funding for these activities.

In addition, Westchester County CoC recommends that ESG recipients and subrecipients administering Rapid Re-housing projects target eligible participants currently homeless and living in Transitional Housing for homeless persons. This population is eligible for Rapid Re-housing funded with ESG but is not currently eligible for Rapid Re-housing funded with Continuum of Care (which may only serve homeless households living on the streets, in emergency shelter, or fleeing domestic violence).

WESTCHESTER COUNTY CONTINUUM  
OF CARE PARTNERSHIP FOR THE  
HOMELESS

---

An Examination of Racial Equity Within  
Westchester's Continuum of Care  
February 2019

**Prepared by Jeffrey Worden, MPH**

## **Abstract**

Each CoC has unique circumstances impacting their homeless populations. The CoC Racial Equity Analysis Tool was created to help facilitate the analysis of racial disparities among people experiencing homelessness. The U.S Department of Housing and Urban Development (HUD) considers this analysis to be a critical first step in identifying and changing racial and ethnic bias in their systems and services.<sup>1</sup>

The tool illustrates racial and ethnic inequities across three populations; all people in poverty, youths experiencing homelessness, and veterans experiencing homelessness. The HUD Racial Equity's Analysis Tool identified the presence of large racial and ethnic disparities when comparing all people living in poverty to persons experiencing homelessness that were beyond the impact of poverty alone.

## **Methodology**

The CoC Racial Equity Analysis Tool takes into account multiple data sources. The number of people experiencing homelessness represented in this tool is drawn from the 2017 Point-In-Time (PIT) Count data reported in the Annual Homeless Assessment Report (AHAR) to the U.S Congress. PIT Counts are unduplicated 1-night estimates of sheltered and unsheltered homeless populations conducted by CoCs nationwide during the last week of January each year.<sup>1</sup>

In this analysis persons who are experiencing sheltered homelessness are defined as “an individual or family living in a supervised publicly or privately-operated shelter designed to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state, or local government programs for low-income individuals,” as defined at 24 CFR 578.3 of the Homeless Definition Final Rule.<sup>1</sup>

People who are experiencing unsheltered homelessness are defined as” an individual or family with a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings, including a car, park abandoned building, bus or train station, airport, or camping ground,” as defined at 24 CFR 578.3 of the Homeless Definition Final Rule.<sup>1</sup>

The distributions of people living in poverty by race and ethnicity are sourced from the American Community Survey (ACS) 2011-2015 5-year estimates. The ACS is an ongoing survey by the U.S. Census Bureau that gathers information previously contained only in the long form of the decennial census. CoC level estimates were calculated from ACS Block Group (BG) estimates along with a BG-to-CoC crosswalk which were created based on ArcGIS mapping software.<sup>1</sup>

Individuals are counted as being in poverty if they are part of a household whose total annual income is less than the poverty threshold. Threshold levels are set by household size but are not adjusted by location. For this reason, the impact of poverty on housing affordability varies from community to community. At the time that this report was created; data was unavailable for the number of people living in poverty by age, and veteran status.

**Results**

*Figure 1.* Distribution of race across all people living in poverty, persons experiencing homelessness, persons experiencing unsheltered homelessness, and in families with children experiencing homelessness.

The first bar chart (figure 1.) shows racial distributions for the Westchester CoC for all people living in poverty, persons experiencing homelessness, and persons experiencing unsheltered homelessness. By comparing racial distributions between persons experiencing

homelessness and persons experiencing poverty, we were able to identify racial disparities in homelessness that poverty alone cannot account for.

When reading the chart above, we see that 24% of all people living in poverty identified as Black in the 2011-2015 ACS. We also see that 69% of people experiencing homelessness in the 2017 Point-In-Time Count identified as Black. This demonstrates a large racial disparity in homelessness, beyond the impact of poverty.

When evaluating the percentage of families with children experiencing homelessness for Westchester’s CoC, we see that 77% of families with children are Black compared to 19% identifying as White, 4% identifying as Multiracial, and <1% Asian/Pacific Islander. When comparing the percentage of families with children who are experiencing homelessness to the percent of estimated people in poverty, we see a greater disparity. While 24% of all people living in poverty identified as Black; 77% of families with children who were experiencing homelessness during the 2017 PIT Count identified as Black.

A figure was not generated depicting the racial demographics of families with children experiencing unsheltered homelessness because no families with children were identified during the 2017 Westchester’s CoC Point-In-Time Count.

### Distribution of Race Among Youth

*Figure 2.* Distribution of race within youths who identified as experiencing homelessness, youths experiencing unsheltered homelessness, and in parenting youth (families with children experiencing homelessness).

This second bar chart (figure 2.) illustrates a racial breakdown of individual's who were identified during the 2017 PIT Count as "Youths". Youths are individuals under the age of 25 who are unaccompanied by a parent. Racial distributions were computed for youths who were experiencing homelessness, unsheltered homelessness, and parenting youth (youth in families with children) experiencing homelessness.

As noted at the top of figure 2; ACS youth poverty data was not available at the time of this report. For this reason, we were unable to compare the racial demographic percentages of individuals or families experiencing homelessness in this age group to the racial demographics of those in poverty. This graphic is only representative of the racial demographics for youth, and parenting youth who were experiencing homelessness during the night of the 2017 PIT Count. The racial demographics of youths of identified as experiencing homelessness the night of the 2017 PIT count are as follows; 20% identified as White, 76% identified as Black, 3% as Other/Multi-Race, and 1% as Asian.

The 2017 PIT Count did not result in the identification of parenting youth experiencing unsheltered homelessness. However, the 2017 PIT Count data does indicate the racial demographics of parenting youth who were experiencing homelessness. As shown above; 85% of parenting youth who were experiencing homelessness identified as Black, 14% as White, and 1% as Other/Multi-Race.

It should also be noted that only two individuals were identified as being under the age of 25 unaided by a parent and experiencing unsheltered homeless during the 2017 PIT Count. Both individuals identified as White (100%). This racial disparity should be interpreted with caution. A larger sample size is needed to generate more precise estimates of the racial demographics of youth experiencing unsheltered homelessness in Westchester County, NY.

*Figure 3.* Distribution of race within veterans who identified as experiencing homelessness and unsheltered homelessness.

As notated at the top of Figure 3; ACS veteran poverty data was not available at the time of this report. For this reason, we were unable to compare the racial demographic percentages of veterans experiencing homelessness to the racial demographics of those in poverty. This Veteran data is only representative of the racial demographics of veterans who were experiencing homelessness during the night of the 2017 PIT Count. Data regarding Veterans in families was also not available during the time this report was generated.

52% of veterans experiencing homelessness identified as White, 46% as Black, and 1% as Other/Multi-race. Five individuals reported experiencing unsheltered homelessness; three of which identified as Black (60%), one as White (20%), and one as Other/Multi-Race (20%). The racial distribution shown between veterans experiencing unsheltered homelessness should be interpreted with caution due to the small sample size (n=5).

## Distribution of Ethnicity Among All People Experiencing Poverty

Figure 4. Distribution of ethnicity across all people living in poverty, persons experiencing homelessness, persons experiencing unsheltered homelessness, and in families with children experiencing homelessness.

Figure 4 illustrates ethnic distributions for the Westchester CoC for all persons living in poverty, persons experiencing homelessness, persons experiencing unsheltered homelessness, and in families with children experiencing homelessness. By comparing the ethnic distributions between persons experiencing homelessness and persons experiencing poverty, we were able to identify ethnic disparities in homelessness that poverty alone cannot account for.

When reading the chart above, we see that 56% of all people living in poverty identified as Non-Hispanic in the 2011-2015 ACS. We also see that 77% of people experiencing homelessness in the 2017 Point-In-Time Count identified as Non-Hispanic. This demonstrates a ethnic disparity in homelessness, beyond the impact of poverty.

When evaluating the percentage of families with children experiencing homelessness for Westchester's CoC, we see that 77% of families with children are Non-Hispanic compared to 23% identifying as Hispanic. When comparing the ethnic percentages of families with children who are experiencing homelessness to the ethnic percentages of all people estimated in poverty, we see a similar disproportion (77% Non-Hispanic vs 23% Hispanic).

No figures were generated to depict the ethnic demographics of families with children experiencing unsheltered homelessness because no families with children were identified during the 2017 Westchester’s CoC Point-In-Time Count.

### Distribution of Ethnicity Among Youth

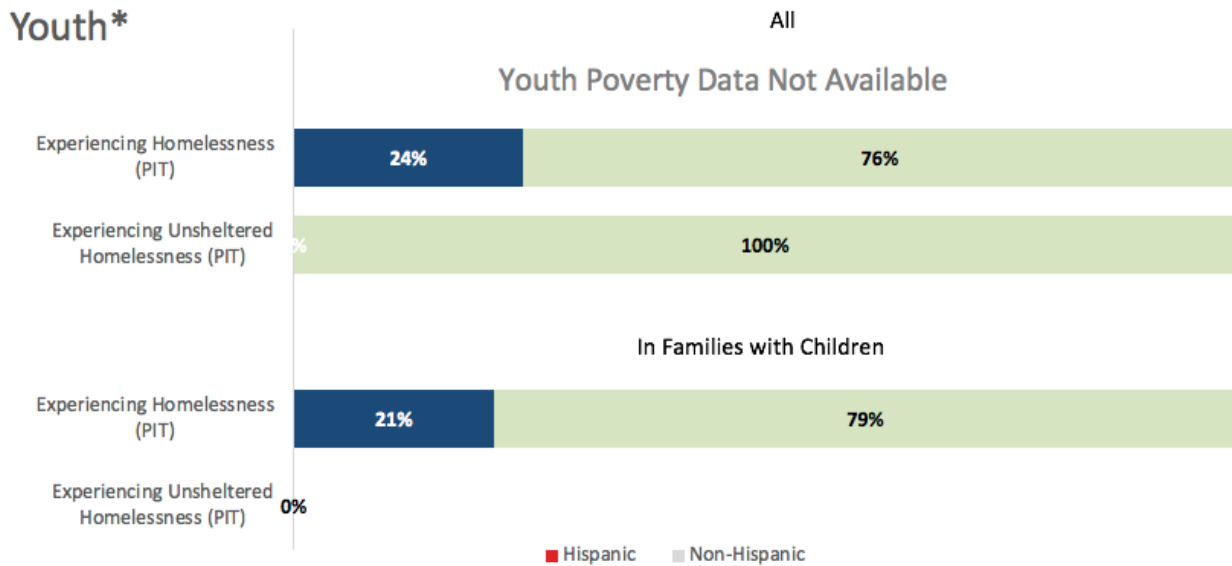

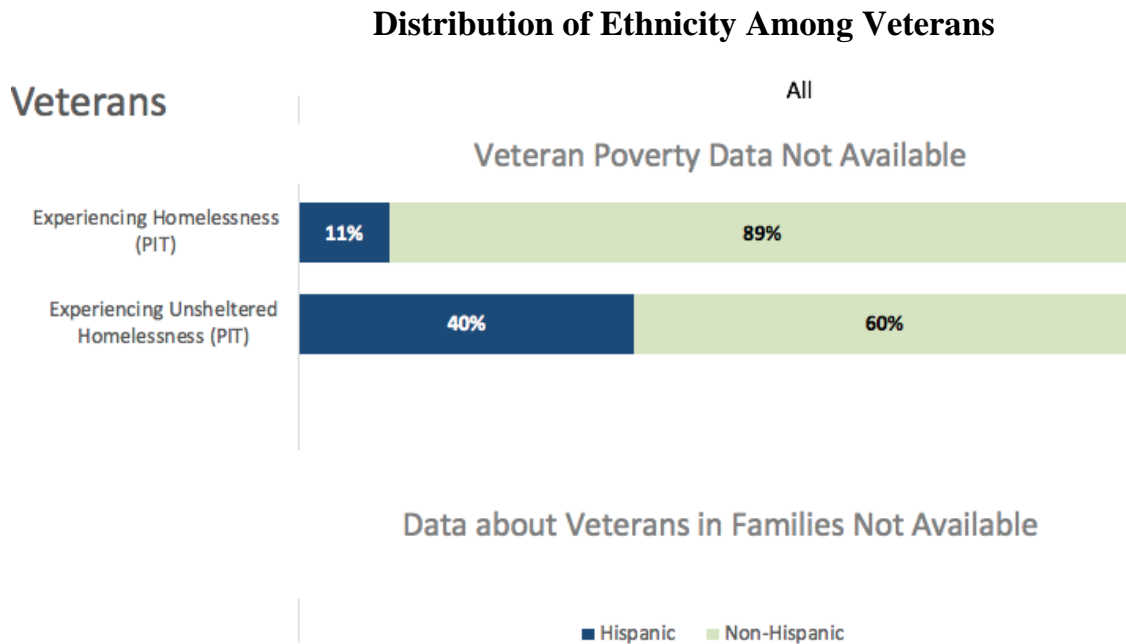

Figure 5. Distribution of ethnicity within youths who identified as experiencing homelessness, youths experiencing unsheltered homelessness, and in parenting youth (families with children experiencing homelessness).

Figure 5 illustrates ethnicity data for youths who were identified as homeless, unsheltered homeless, and as parenting youth (youth in families with children) experiencing homelessness. Due to ACS youth poverty data being unavailable; the figure above is only representative of ethnicity data for youth, and parenting youth who were experiencing sheltered or unsheltered homelessness during the night of the 2017 PIT Count.

The 2017 PIT Count data indicates that 76% of youth’s experiencing homelessness in Westchester County identified as Non-Hispanic. Likewise, 24% of youths identified as Hispanic. Once again, it should also be noted that only two individuals were identified as being under the age of 25 unaided by a parent and experiencing unsheltered homeless during the 2017 PIT Count. Both individuals identified as Non-Hispanic (100%).

As mentioned previously, the 2017 PIT Count did not result in the identification of parenting youth experiencing unsheltered homelessness. However, the 2017 PIT Count data does indicate the ethnic demographics of parenting youth who were experiencing homelessness. As shown above; 79% of parenting youth who were experiencing homelessness identified as Non-Hispanic, and 21% as Hispanic.

*Figure 6.* Distribution of ethnicity within veterans who identified as experiencing homelessness and unsheltered homelessness.

As previous stated; the ACS veteran poverty data was not available. For this reason, we were unable to compare the ethnic demographic percentages of veterans experiencing homelessness to the ethnic demographics of those in poverty. Data regarding Veterans in families was also not available during the time this report was generated.

Figure 6 represents the ethnic demographics of veterans who were experiencing homelessness during the night of the 2017 PIT Count. 11% of veterans experiencing homelessness identified as Hispanic, and 89% as Non-Hispanic. With regards to the number of Veterans who were experiencing unsheltered homelessness; 60% identified as Non-Hispanic, and 20% identified as Hispanic. The ethnic distribution shown between veterans experiencing unsheltered homelessness should be interpreted with caution due to the small sample size (n=5).

## **Limitations**

The race categories used in this analysis may not accurately reflect the racial identities and lived experiences of all surveyed individuals. However, the availability of this data provides a starting place to examine racial disparities in each CoC.

Another limitation is that the race data for families with children who were experiencing homelessness is based on the racial identity of the head of household. This is a proxy and may not accurately represent the racial identity of all household members.<sup>1</sup>

Lastly, PIT Count data is not perfect, and the unsheltered count is particularly challenging. PIT data may include duplications of counts due to multiple encounters, however it is more likely that PIT data is an undercount, due to not all homeless households being identified. Staffing, weather, and geography all have an impact on the data. Nevertheless, PIT Count Data is an important indicator to consider, and our best available estimate of rates of homelessness in a given community.<sup>1</sup>

## **Conclusion**

Racial and ethnic disparities are driven by a complex array of inequities within systems and social dynamics such as; biases and prejudices, overt discrimination, systemic and institutional racism, and many others. All of these factors impact how our community responds to homelessness, and collectively causes and creates homelessness throughout Westchester County.<sup>2</sup>

The HUD Racial Equity's Analysis Tool identified the presence of large racial and ethnic disparities in experiences of homelessness that were beyond the impact of poverty alone. The data provided in this analysis coincides with countrywide data showing minority groups experiencing homelessness at higher rates than Whites, and therefore making up a disproportionate share of the homeless population.<sup>3</sup>

Continuums of Care can't, by themselves, solve all of the dynamics and forces that create the disparities, however further examining our data and policies practices can address racial and ethnic inequities more intentionally and comprehensively.<sup>2</sup> Below are a few questions that should be considered as we continue to address disparities within Westchester County's CoC.<sup>2</sup>

**HUD Recommended Discussion Questions<sup>1</sup>:**

- 1) How does your CoC compare to state numbers? Are any racial groups over or under represented among the homeless population in your CoC?
- 2) Are there specific local or state conditions that might lead to these differences?
- 3) In PIT counts, are there significant differences between sheltered and unsheltered counts as far as over or under representation? Why might that be?
- 4) Are there differences in families and individuals in terms of racial distribution?
- 5) What does youth data look like compared to all households? What about youth in families with children?
- 6) What about veterans in your community? What do you know about your own community that gives context to the data?

**Other Questions to Consider<sup>2</sup>:**

- What current data points are most instructive?
- What other questions should we all be asking of our data to better understand access, service provision, and outcomes?
- What does the data tell us about the who is entering our system?
- What training do we need to better understand these dynamics, analyze data accordingly and make recommendations?
- Do our policies address and meet the needs of people of color?
